

Senior Research Assistant / Research Assistant I/ Research Assistant II
(Ref: 2301200)
Research and Development Office (Knowledge Transfer Sub-Office)

The appointees will participate in various research projects related to system integration including hardware and software development and developing a platform-independent software framework. They will be responsible for conducting literature review, digital system development, data collection, programming, data analysis and drafting research reports. They are also expected to provide administrative support to the research team. There will be opportunities for manuscript writing and publication in international journals. The appointment will be initially for a period of 12 months, with the possibility of renewal subject to mutual agreement.

Applicants for Senior Research Assistant should have a master's degree in Electronic Engineering/Computer Engineering/Multimedia Technologies/Data Science, Sports Science, Psychological Science, Occupational Science or related disciplines/fields, plus one year post Master's degree full-time working experience, or a Doctoral degree in the above mentioned disciplines. Familiarity with object-oriented programming and possession of experience in front-end and back-end system development would be an advantage.

Applicants for Research Assistant I should have a bachelor's degree in Electronic Engineering/Computer Engineering/Multimedia Technologies/Data Science or related disciplines. Familiarity with object-oriented programming and possession of experience in front-end and back-end system development would be an advantage.

Applicants for Research Assistant II should have at least Level 2 or equivalent or above in five subjects including Chinese Language, English Language and Mathematics in HKDSE; or Grade E (Level 2) or above in five subjects including Chinese, English (Syllabus B) and Mathematics in HKCEE or equivalent. Preference will be given to applicants with a higher diploma or above in Electronic Engineering /Computer Engineering/Multimedia Technologies/Data Science or related disciplines. Familiarity with object-oriented programming and possession of experience in front-end and back-end system development would be an advantage.

Salary will be commensurate with qualifications and experience.

Initial appointment will be made on a fixed-term contract. Fringe benefits include contract-end gratuity, leave, medical and dental benefits.

The University only accepts and considers applications submitted online for this post. Applicants should complete the [online application form](#) and upload a full CV. **Review of applications will start from 10 November 2023, and will continue until the post is filled.** Applications which are incomplete or without the required documents may not be considered. Personal data provided by applicants will be used for recruitment and other employment-related purposes.
